Trust

*Reflecting on the Trust's achievements over the
past 50 years and looking forward to the future*

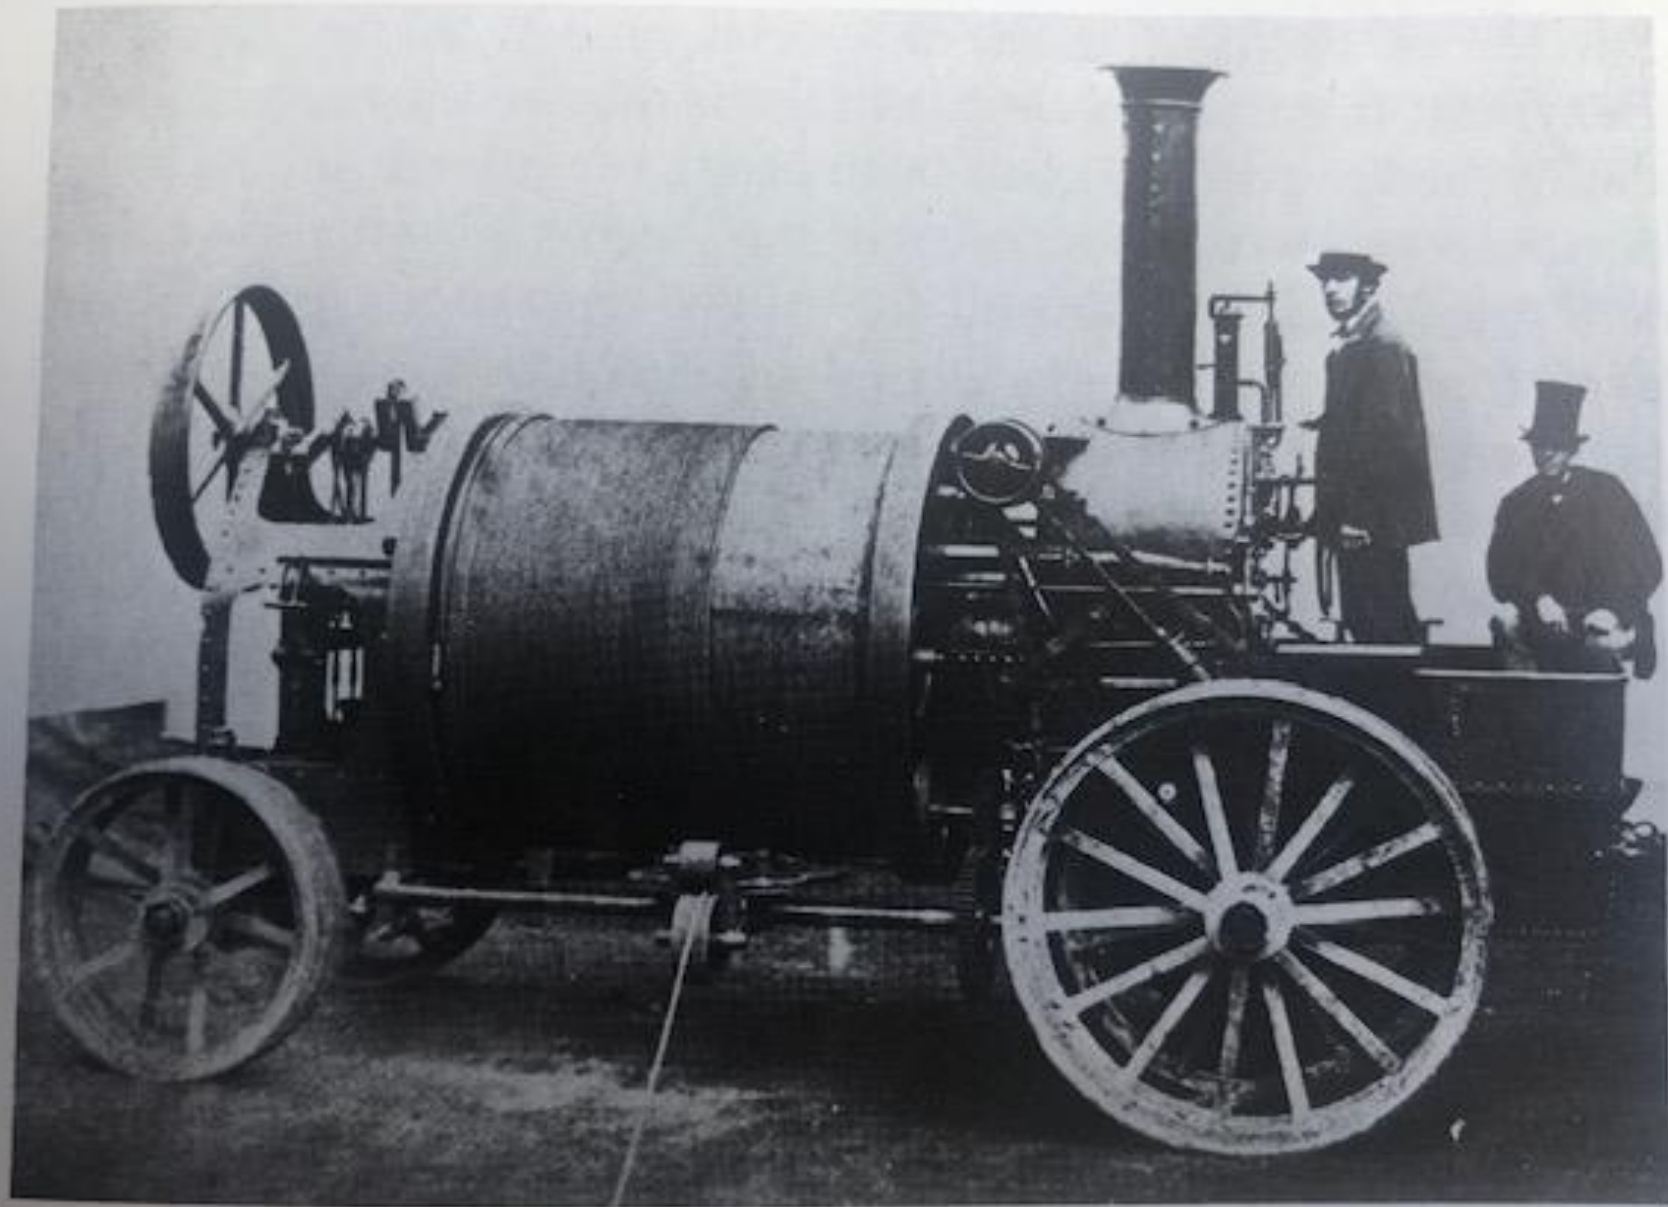

The
DOUGLAS BOMFORD
Trust

50th Anniversary

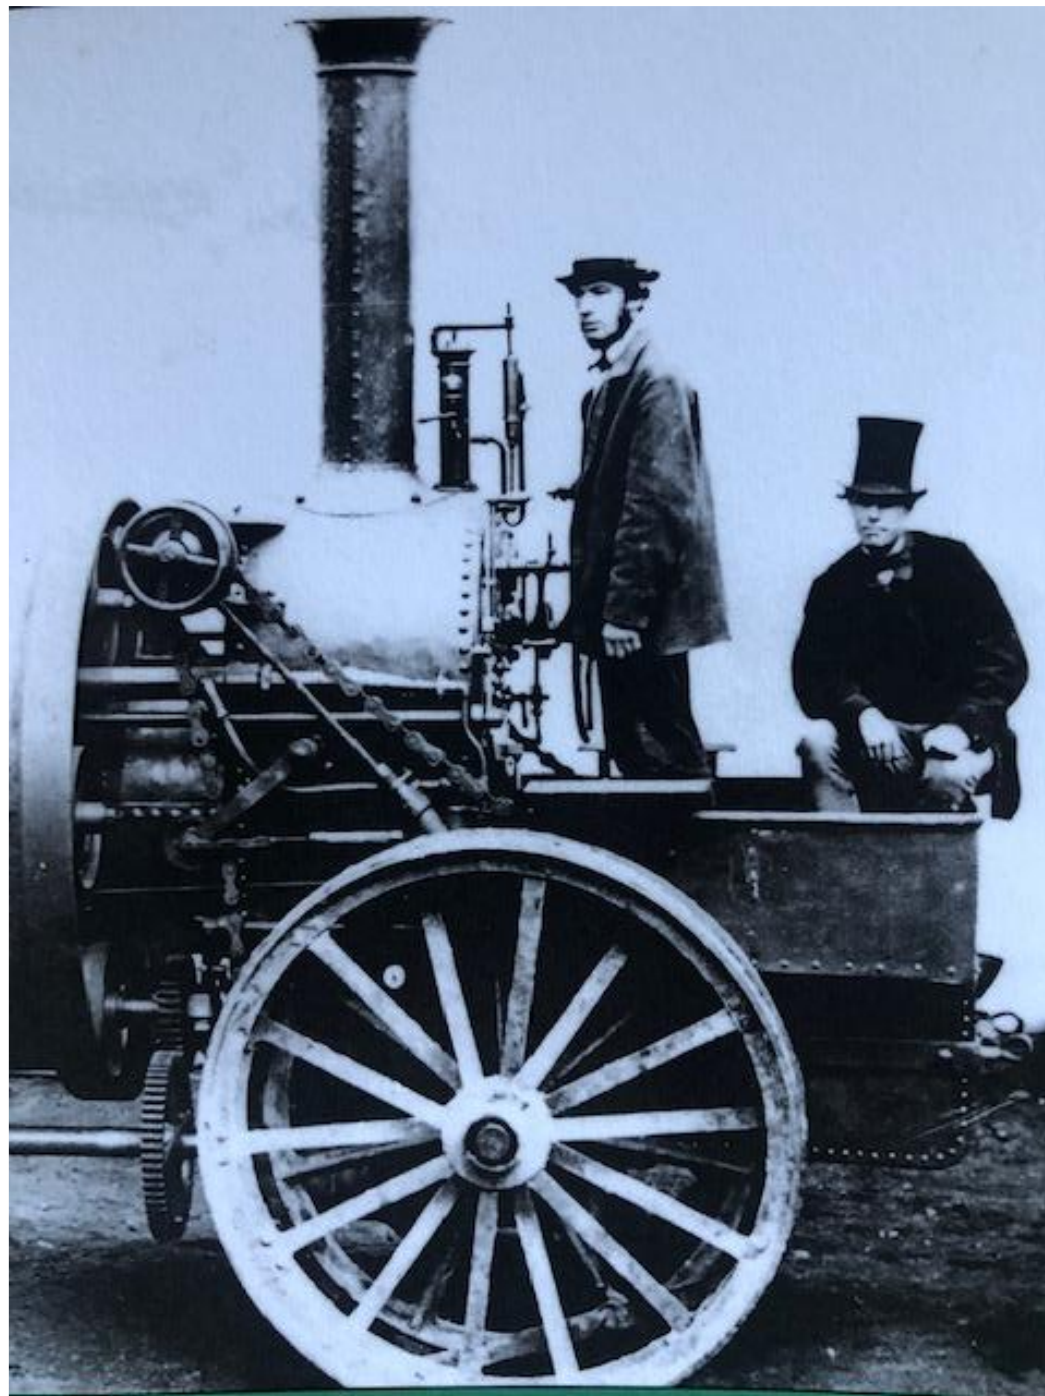

Origin and evolution of the Trust

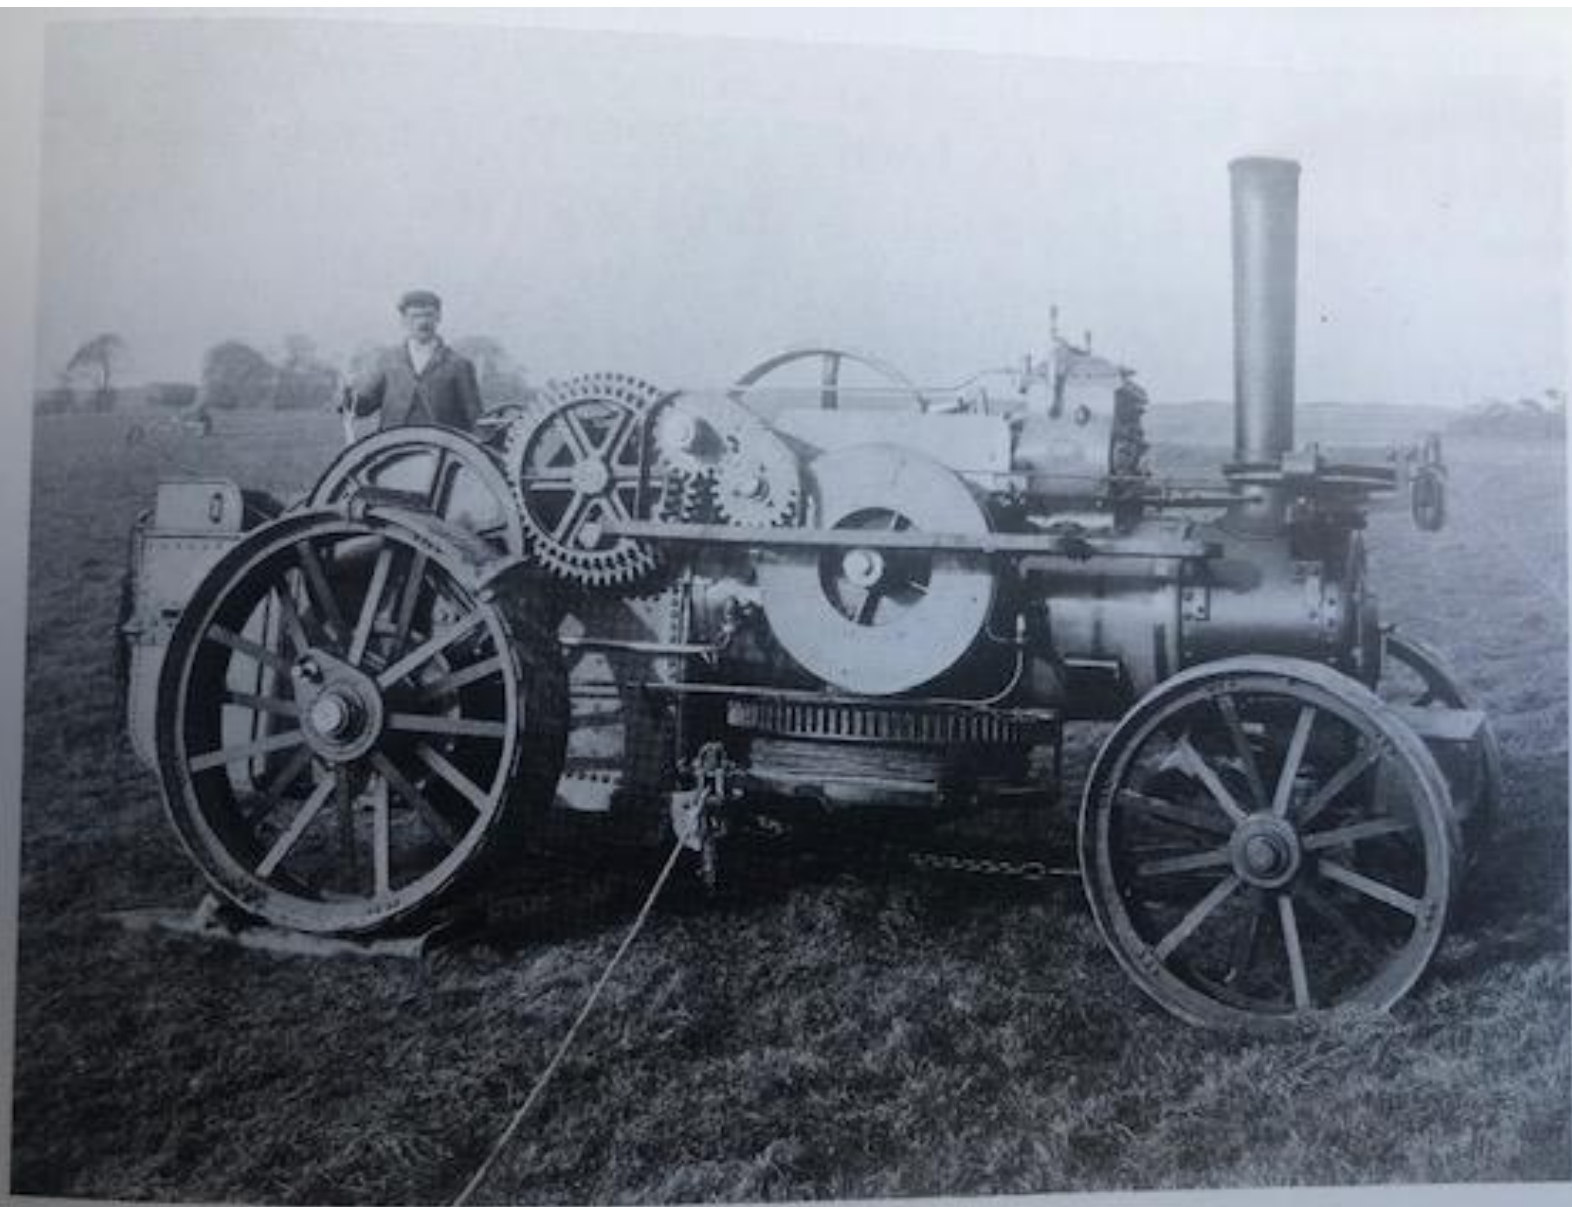

Jonathan Bomford
(Family Trustee)

Benjamin Bomford's first ploughing engine, the Savory, built at Gloucester.

Most of the subsequent engines were Fowlers. This one is a double drum type.

BOMFORD MIDGET TRACTOR

**DESIGNED BY MR.D.R. BOMFORD FOR USE ON ROWCROP
WORK, AROUND 20 OF THESE TRACTORS WERE BUILT DURING THE
LATE 1930's**

**POWERED BY A MORRIS COWLEY PETROL ENGINE REAR
WHEEL EQUIPMENT WAS EITHER PNEUMATIC OR STEEL WITH
RETRACTABLE STRAKE**

**THIS EXAMPLE WAS RESTORED BY THE STUDENTS OF
RYCOTEWOOD COLLEGE DURING 1982-83**

Bomford's innovations

The 'Bomford' Brand

THE "SAPPER MAJOR" BULLDOZER/ANGLEDZOZER

Patent appn. No. 15812/45

For attachment to most standard Agricultural track laying tractors without interfering with their use for other purposes. Attachable and removable in a few minutes. Quickly changed to ANGLEDZOZER. Simple hydraulic control.

LOW PRICED HIGHLY EFFICIENT EASILY FITTED

THE BOMFORD STORY

Theo Sherwen

From **BOMFORD** performance proven **SUPERFLOWS**

Three-model choice to meet your needs

SUPERFLOW Lo-Draft
 For deeper work in heavier soils

This equipment gives maximum penetration without the need for additional chains, with minimum resistance of steel shattering layers. High quality steel and protective cover to the cast-iron line.

SUPERFLOW Standard
 For high shatter surface ploughing

A harrow of light, strong or 18 teeth fitted to 10 ft. frame. Optimum attachment. Custom built. Top Guard. Two Discs.

SUPERFLOW Powertrak
 For Crawlers and big wheeled tractors

Built with extra strength to match tractor power. Incorporated 1 high-torque spring action. 12 teeth on 12 ft. frame.
